Friday 4 Oct 'The View From the North', illustrated by Steve Batty, visiting us from Selby.

Portishead Branchline This line (Metro-West 1) and Henbury (Metro-West 2) were both visited by West Coast management saloon 999506 hauled by 47848/57009 on 30th August, the 09.31 Swindon-Bristol Temple Meads passing Clifton Bridge at 10.36 and calling at the Ashton Gate token point (sig.BL2192) from 11.25-11.29 on the return. A 13.38 Bristol Temple Meads-Bristol Temple Meads followed which called at the new Ashley Down Station platform 1 (arriving at 13.45) and later passing the site of the planned Henbury Halt at 14.22 on the return from the reversing point at Holesmouth Jct (Avonmouth). The train then returned 14.51 Bristol Temple Meads-Swindon via Parkway passing Horfield Junction at 15.11. It is understood officials were reviewing the planned Metro-West project which is to reinstate passenger services over freight routes to enhance Bristol's rail passenger services, part of which had recently been put on hold as the new incoming Government scrapped the 'restoring your railways scheme' for cost saving purposes.

Severn Beach Branch line Further high tides in September along the River Avon caused more problems at Sea Mills with 'flooding' being listed as Network Rail carried out checks on the River Trym viaduct. On 18th 158762 19.46 Avonmouth-Bristol Temple Meads and 165136 20.01 Severn Beach-Bristol Temple Meads were the final through trains with the Severnside Containers diverted via the Henbury loop to Parkway. 166214 20.12 Bristol Temple Meads-Severn Beach was terminated Clifton Down at 20.30, road buses then operating to stations onwards to Severn Beach until 166210 worked through on 19th with 11.10 Weston-super-Mare-Severn Beach departing Sea Mills at 12.17. Another evening high tide at 21.17 of 13.13 metres saw services cancelled again, 166218 20.31 Severn Beach-Bristol Temple Meads being the last, the Severnside containers again being diverted via Henbury using 66128/66051. A revised timetable was introduced well into the 20th based on services terminating and restarting at Clifton Down until 166208 worked through with 11.10 Weston-super-Mare-Severn Beach. Evening trains were again affected with a 13.01 metre tide recorded at 21.58, services eventually returning close to normal from 21st onwards.
