

Fri 5 Sep 'South Wales Railways in the 21st Century' by Stuart Warr.

Portbury Branch Line A further break in steel traffic took place but loading restarting on 18th with 66767 working 6C92 07.42 empties from Margam and 6B92 16.49 return loaded to 22 KEAs along with a DB working which on the following day was worked by 66117 as 6Z56 03.15 Margam-Portbury Auto-terminal inward empty and 6Z57 10.30 loaded 25 wagon return.

Avonmouth Work at Charlton Tunnel, between Hallen Marsh Junction and Filton West saw an occupation and line closure commence between 10th-24th August. Drainage improvements were undertaken, but it was believed some ground work was the two new stations as part of Metro-West 2 to open over the coming two years at Henbury and Filton North (Brabazon) also along this stretch of line. An 'off peak' Severn Beach passenger timetable adjustment was made by GWR releasing extra paths for Avonmouth Dock stone and cement traffic the first (during daylight) being used on 12th with 66605/66952 6C81 09.24 Stoke Gifford-Avonmouth Bennett's stone empties which (as with the other booked freights) used Bristol East loop to reverse. With the inward passing Avonmouth station at 10.49, the 6A83 13.45 return to West Drayton was recorded Hallen Marsh junction at 13.43 ready to reverse and go forward via Clifton Down. Following a signalling fault during the morning of 15th between Avonmouth and Severn Beach, Turbo 166201 working 10.10 Weston-super-Mare-Severn Beach having arrived Avonmouth at 11.16 was terminated here, with passengers from St. Andrew's Road and Severn Beach stations being collected by taxis to meet the train. With arrival following the platform 'shunt' move at 11.28, the 11.47 return to Weston-super-Mare departed from here (not Severn Beach at 11.34) to time, with 66765+66751 following at 12.00 with a diverted 6M42 11.47 Avonmouth Hansons-Penyffordd train of 13 PGA cement empties. Most cement workings were however operating late evening inward and outward during the early hours of the following morning. On 19th 66601+66590 6B51 18.00 Westbury - Avonmouth Hansons loaded stone (21 JNA) crossed 66162 6A03 20.41 Severnside - Brentford refuse container empties at Clifton Down passing non-stop at 21.09, the afternoon Severnside train also having a booked inward path via Clifton Down. The stone train was to return empty during the following morning as 66590/66601 6C79 10.43 Avonmouth-Westbury which passed Sea Mills at 11.27. Several engineering trains for the worksite also operated from Oxford Hinksey Yard or Westbury during the closure period, most running inward via Clifton Down and returning via Filton West junction.

Note: Trains marked * were diverted due to engineering work between Gloucester and Severn Tunnel Junction.

Delays and cancelations On 4th August Trains were cancelled after signalling issues led to a freight train blocking the line near Avonmouth. Disruption on the route between Bristol Temple Meads and Severn Beach was expected until at least 12.00, with no service running between Clifton Down and Severn Beach. Rail replacement buses in the form of 16-seater minibuses were put in place, but these were not run to the train timetable due to the extended journey time by road.

Bristol Area Railtours and Visiting Excursions (Provided in good faith but not guaranteed accurate!)

Date	Tour	Destination	Haulage	Pick-up	Fare	Operator
