

# **Michael Mensing (MM)**

## **Photographic Collection**

### **Preserved Steam Locomotives and GWR Railcars**

## **Index Cards**

Michael Mensing indexed all of this collection in various ways.

This file is a scan of a card index (comprising index cards and scraps of paper) filed by locomotive or unit number and cross referenced to the Michael Mensing photograph number as used on his images and in his notebooks.

Using these cards, if a photograph of a specific locomotive or unit number is required, the image number can be identified.
