Society President Brian Arman

Our new president, the Reverend Canon Brian Arman, now that he has settled in to his new role is keen to get out and about to meet the Society's branches. As you are aware, he has a family interest in the Great Western railway and may be able to come and talk to your branch about various facets of that and other railway topics.

Brian does not have access to email but can be contacted by phone, his number is 0117 969 0010. Please bear in mind that in contrast to his predecessor he does not receive free train travel so his travelling costs will need to be reimbursed.

DIGITAL PROJECTORS

The society offers, as part of its general insurance policy, cover for the digital projectors owned by the branches. They are included on a listing that John Redgate submits to our insurers every year. John deals with this at the end of the year so that we are covered from the beginning of the New Year. Ideally he would like the then current list to be submitted at the end of November so can you please provide any information to me about the changes in the equipment that you are using; new, upgraded or replacement by November 15th.
