ASSISTANCE REQUESTED FROM THE BRANCHES

On occasions the Society needs to know and/or contact railway clubs that have local meetings or visit programmes and the Development Committee has in the past maintained a list of these. However this has not been updated for many years. Some clubs advertise their activities widely but others are only known locally so we need branch help to update our records. Could all branches therefore please e-mail a list of all such clubs in their area to the DSC Chairman, Paul Chancellor at tptrannies@aol.com

All that we need to know at present is the name of the club/society, the town in which they hold meetings and a contact e-mail/phone number if possible.

Clubs attached to preservation groups who only hold meetings to talk about their own projects are not required but if they have talks on more general railway topics then please include them on the list. We would appreciate your information being with us by 31st July.
