REVISED RATES FOR NEW MEMBERS

Following comments from members at the AGM that the differential between the special offer to recruit new members at £15 and the full year subscription of £28 was much too wide and conceivably a disincentive to continued membership at renewal time in October.

This issue was considered by the DSC who proposed that the introductory offer be adjusted to £20 for the printed RO and £15 for the digital version. The MC has accepted these new rates.

Please note that they are effective immediately.
