Officers' Newsletter 185

16 February 2020

Society Insurance Policy for 2020

The Insurance Policy Schedule and Public Liability Certificate for 2020 are now available and a copy of either or both can be provided on request. There is an excess for any claims relating to the cover for branch equipment and public liability cover is again at £5,000,000.

Please note that details of the policy are strictly confidential to Society Officers and should **NOT** be automatically distributed more widely to third parties.

Newsletter Index

I now have a complete set of all newsletters in the current numbering sequence which starts in November 2000, plus another seven immediately preceding. An index has been compiled from the earliest of those pre-numbered newsletters showing the subjects covered, and my thanks go to Andy Davies (Chief Archivist) for doing most of the compilation work. If anyone would like copies of individual newsletters please ask. The index is attached to this newsletter as **Appendix 1**.

Updating Branch information on the website

This includes branch contacts, up and coming meetings and events including indoor meetings with speaker and subject, outdoor visits, exhibitions and any other branch activities. It is also useful to make sure that there are reports to go with branch activities for anyone viewing your branch pages to read. There are some good reasons for doing this. For example, people can see that the branches are active and they may then be interested in becoming more involved whether by attending meetings or something more. These pages are also available to the wider public and may attract new visitors as well as members who are not currently actively involved in any branch activities. The branches do a lot of good work so let's make it more public.

The information contained in this newsletter is for use of RCTS Officers and Members only and should not be communicated outside of the Society

Branch AGM Minutes for 2019

This is a reminder for all branches who have not already provided their branch AGM minutes for 2019 to send them in as soon as possible. I appreciate that AGM minutes are not approved until the following year but it will show in the next set of minutes if the previous ones have been approved and signed off and should record any amendments that have to be made, so please send them in as soon as possible after the meeting. Overall, branches have been much more cooperative in submitting their AGM minutes and this is much appreciated. I now have a full set of responses for 2016, 2017 and 2018 – it seems to have been a bit sporadic before then, and I look forward to completing the set for 2019 in the near future. Currently about half have been received together with the first one for January 2020. If you are not sure whether or not you have submitted yours, please ask. It saves me a lot of time if I do not have to send out individual reminders and I greatly appreciate your help with this.

Regional Meetings

It is the time of year again to remind everyone about Regional Meetings which take place in May and June each year. The five regional groups remain the same for now and the chart with details to date is shown further down in this newsletter. Please would all chairmen have a look at arrangements for this year and let me know whether or not these have been confirmed, are under negotiation, or if there are any problems to be addressed. With enough advance notice, any problems can be sorted out in good time.

Aside from the necessary items on the agenda eg those present, apologies etc, if you have any topics that you would like to raise for discussion, please let me know. This is the perfect opportunity to meet with a representative from the Trustees/Management Committee and provide feedback in both directions about what is happening at management level and at the branches. How the branches are doing will be on the agenda again and what we might do with the information from this - but more on that at a later date.

Regional Meeting Expense Reimbursement

Hopefully, you are all now familiar with the process of claiming back expenses but just in case there are new people who do not yet know the process, the information about this is available in the Treasurers Guidance Note 4 which is on the Officers' Section of the Society website. It is also included in Appendix 5 of the Officers Handbook.

Letter to New Members

With the good work on recruiting new members continuing, a letter has now gone out to all of those who have joined since June 2018 – the real start of the current recruitment drive, inviting them to volunteer and become more active within the Society. The good news is that some replies have already been received. Paul Chancellor will be dealing with any responses from new members who are interested at national level, while I will take on responses from those who are interested at branch level. You may find that some will respond directly to you at your branch. Have a quick look at the list of **Society Benefits**, an updated version of which should be on the Society's website, and perhaps think about having a printed copy to hand at branch meetings for any new members or visitors who may attend. Full recruitment data for 2019 will be given in another newsletter fairly soon but as a quick guide, there were exactly 500 new recruits last year!
